

VIDEO ANALYST, MUMBAI

Company Information

Intelligent Data provides high quality traffic and transportation survey data. This data ranges from the simple traffic turning count through to large scale multi modal data for use in strategic models. We are involved in surveys such as traffic counts (Manual Classified Counts, Automatic Traffic Counts), public transport studies, journey time and RSIs among many other types.

Intelligent Data is a growing company, with long term aspirations to expand. Opportunities within the company are varied and staff are actively encouraged to become involved in the company development and are encouraged to be proactive with regard to their roles. The opportunities are there for those that want them.
